adhanoerhidayah4@gmail.com

A passionate Informatics Engineering from Surakarta University with experience in front-end development and data management. Skilled in HTML, CSS, JavaScript, and Tailwind CSS, with a strong understanding of responsive web design and UI animations. Previously worked as an Archive Management Officer, where I developed strong organizational and data management skills. Enthusiastic about continuous learning, problem-solving, and freelancing in web development. Currently seeking opportunities as a Front-End Developer to apply my technical skills in creating modern and user-friendly web experiences.

Pengalaman Kerja

Archive Management Officer | PT. Prima Karya Sarana Sejahtera, Karanganyar

2021-2022

Organized and maintained customer records in the archive storage room. Scanned and digitized customer documents for electronic record-keeping. Inputted and updated customer data into the company's website and internal database. Ensured accurate and efficient document filing for easy retrieval. Assisted in document verification and quality control before archiving.
